Dear Family and Friends,

If we just hang in there and be patient, winter will eventually pass and we will be back into spring again! Personally, I can hardly wait until winter is over. This has been a bad one for our family and friends up north; however, here in Georgia, (although it has been cold enough) I really feel blessed because Rodney and I have been comfortable and warm. We have been heating with a wood burning stove the last two winters. This winter it has taken more effort on Rodney's part to keep the wood carried in but he has done a good job of making sure we were comfortable!

Our message this month: TRAPPED

JERRY BROWN DELTA FLIGHT 15... (A TRUE STORY)

Here is an amazing story from a flight attendant on Delta Flight 15, written following 9-11:

On the morning of Tuesday, September 11, we were about 5 hours out of Frankfurt, flying over the North Atlantic.

All of a sudden the curtains parted and I was told to go to the cockpit, immediately, to see the captain. As soon as I got there I noticed their faces. The captain handed me a printed message. It was from Delta's main Office in Atlanta and simply read, "All airways over the Continental United States are closed to commercial air traffic. Land ASAP at the nearest airport. Advise your destination."

No one said a word about what this could mean. We knew it was a serious situation and we needed to find terra firma quickly. The captain determined that the nearest airport was 400 miles behind us in Gander, Newfoundland.

He requested approval for a route change from the

Canadian Traffic Controller and approval was granted immediately -- no questions asked. We found out later, of course, why there was no hesitation in approving our request.

While the flight crew prepared the airplane for landing, another message arrived from Atlanta telling us about some terrorist activity in the New York area. A few minutes later word came in about the hijackings.

We decided to LIE to the passengers while we were still in the air. We told them the plane had a simple instrument problem and that we needed to land at the nearest airport in Gander, Newfoundland, to have it checked out.

We promised to give more information after landing in Gander.

There was much grumbling among the passengers, but that's nothing new!

Forty minutes later, we landed in Gander. Local time at Gander was 12:30 PM!that's 11:00 AM EST.

There were already about 20 other airplanes on the ground from all over the world that had taken this detour on their way to the U.S.

After we parked on the ramp, the captain made the following announcement: "Ladies and gentlemen, you must be wondering if all these airplanes around us have the same instrument problem as we have. The reality is that we are here for another reason." Then he went on to explain the little bit we knew about the situation in the U.S. There were loud gasps and stares of disbelief. The captain informed passengers that Ground Control in Gander told us to stay put.

The Canadian Government was in charge of our situation and no one was allowed to get off the aircraft. No one on the ground was allowed to come near any of the air crafts. Only airport police would come around periodically, look us over and go on to the next airplane. In The next hour or so more planes landed and Gander ended up with 53 airplanes from all over the world, 27 of which were U.S. commercial jets.

Meanwhile, bits of news started to come in over the aircraft radio and for the first time we learned that airplanes were flown into the World Trade Center in New York and into the Pentagon in DC. People were trying to use their cell phones, but were unable to connect due to a different cell system in Canada. Some did get through, but were only able to get to the Canadian operator who would tell them that the lines to the U.S. were either blocked or jammed.

Sometime in the evening the news filtered to us that the World Trade Center buildings had collapsed and that a fourth hijacking had resulted in a crash. By now

the passengers were emotionally and physically exhausted, not to mention frightened, but everyone stayed amazingly calm. We had only to look out the window at the 52 other stranded aircraft to realize that we were not the only ones in this predicament.

We had been told earlier that they would be allowing people off the planes, one plane at a time. At 6 PM, Gander airport told us that our turn to deplane would be 11 am the next morning.

Passengers were not happy, but they simply resigned themselves to this news without much noise and started to prepare themselves to spend the night on the airplane.

Gander had promised us medical attention, if needed, water, and lavatory servicing. And they were true to their word.

Fortunately we had no medical situations to worry about. We did have a young Lady who was 33 weeks into her pregnancy. We took REALLY good care of her.

The night passed without incident despite the uncomfortable sleeping arrangements.

About 10:30 on the morning of the 12th a convoy of school buses showed up. We got off the plane and were taken to the terminal where we went through Immigration and Customs and then had to register with the Red Cross.

After that we (the crew) were separated from the passengers and were taken in vans to a small hotel. We had no idea where our passengers were going. We learned from the Red Cross that the town of Gander has a population of 10,400 people and they had about 10,500 passengers to take care of from all the airplanes that were forced into Gander! We were told to just relax at the hotel and we would be contacted when the U.S. airports opened again, but not to expect that call for a while.

We found out the total scope of the terror back home only after getting to our hotel and turning on the TV, 24 hours after it all started.

Meanwhile, we had lots of time on our hands and found that the people of Gander were extremely friendly. They started calling us the "plane people." We enjoyed their hospitality, explored the town of Gander and ended up having a pretty good time.

Two days later, we got that call and were taken back to the Gander Airport. Back on the plane, we were reunited with the passengers and found out what they had been doing for the past two days. What we found out was incredible.

Gander and all the surrounding communities (within about a 75 Kilometer radius) had closed all high schools,

meeting halls, lodges, and any other large gathering places. They converted all these facilities to mass lodging areas for all the stranded travellers. Some had cots set up, some had mats with sleeping bags and pillows set up.

ALL the high school students were required to volunteer their time to take care of the "guests." Our 218 passengers ended up in a town called Lewisporte, about 45 kilometers from Gander where they were put up in a high school. If any women wanted to be in a women-only facility, that was arranged. Families were kept together. All the elderly passengers were taken to private homes.

Remember that young pregnant lady? She was put up in a private home right across the street from a 24-hour Urgent Care facility. There was a dentist on call and both male and female nurses remained with the crowd for the duration.

Phone calls and e-mails to the U.S. and around the world were available to everyone once a day. During the day, passengers were offered "Excursion" trips. Some people went on boat cruises on the lakes and harbors. Some went for hikes in the local forests. Local bakeries stayed open to make fresh bread for the guests.

Food was prepared by all the residents and brought to the schools. People were driven to restaurants of their choice and offered wonderful meals. Everyone was given tokens for local laundry mats to wash their clothes, since luggage was still on the aircraft. In other words, every single need was met for those stranded travelers.

Passengers were crying while telling us these stories. Finally, when they were told that U.S. airports had reopened, they were delivered to the airport right on time and without a single passenger missing or late. The local Red Cross had all the information about the whereabouts of each and every passenger and knew which plane they needed to be on and when all the planes were leaving. They coordinated everything beautifully.

It was absolutely incredible. When passengers came on board, it was like they had been on a cruise. Everyone knew each other by name. They were swapping stories of their stay, impressing each other with who had the better time. Our flight back to Atlanta looked like a chartered party flight. The crew just stayed out of their way. It was mind-boggling.

Passengers had totally bonded and were calling each other by their first names, exchanging phone numbers, addresses, and email addresses.

And then a very unusual thing happened.

One of our passengers approached me and asked if he could make an announcement over the PA system. We never, ever allow that. But this time was different. I said "of course" and handed him the mike. He picked up the PA and reminded everyone about what they had just gone through in the last few days. He reminded them of the hospitality they had received at the hands of total strangers. He continued by saying that he would like to do something in return for the good folks of Lewisporte.

"He said he was going to set up a Trust Fund under the name of DELTA 15 (our flight number). The purpose of the trust fund is to provide college scholarships for the high school students of Lewisporte. He asked for donations of any amount from his fellow travelers.

When the paper with donations got back to us with the amounts, names, phone numbers and addresses, the total was for more than \$14,000!

"The gentleman, a MD from Virginia, promised to match the donations and to start the administrative work on the scholarship. He also said that he would forward this proposal to Delta Corporate and ask them to donate as well.

As I write this account, the trust fund is at more than \$1.5 million and has assisted 134 students in college education.

"I just wanted to share this story because we need good stories. It gives us hope to know that some people in a faraway place were kind to some strangers who literally dropped in on them.

It reminds me how much good there is in the world." "In spite of all the rotten things we see going on in today's world this story confirms that there are still a lot of good people in the world and when things get bad, they will come forward.

RECALL NOTICE

The Maker of all human beings (GOD) is recalling all units manufactured, regardless of make or year, due to a serious defect in the primary and central component of the heart. This is due to a malfunction in the original prototype units code named Adam and Eve, resulting in the reproduction of the same defect in all subsequent units. This defect has been identified as "Subsequential Internal Non-morality," more commonly known as S.I.N., as it is primarily expressed.

Some of the symptoms include :

1. Loss of direction
2. Foul vocal emissions

3. Amnesia of origin
4. Lack of peace and joy
5. Selfish or violent behavior
6. Depression or confusion
7. Fearfulness
8. Idolatry
9. Rebellion

The Manufacturer, who is neither liable nor at fault for this defect, is providing factory-authorized repair and service free of charge to correct this defect. The Repair Technician , **JESUS**, has most generously offered to bear the entire burden of the staggering cost of these repairs. There is no additional fee required. The number to call for repair in all areas is:

P-R-A-Y-E-R.

Once connected, please upload your burden of **SIN** through the **REPENTANCE** procedure. Next, download **ATONEMENT** from the Repair Technician, **Jesus** , into the heart component.

No matter how big or small the SIN defect is **Jesus** will replace it with:

1. Love
2. Joy
3. Peace
4. Patience
5. Kindness
6. Goodness
7. Faithfulness
8. Gentleness
9. Self control

Please see the operating manual, the **B.I.B.L.E.** (BEST Instructions Before Leaving Earth) for further details on the use of these fixes.

WARNING: Continuing to operate the human being unit without correction voids any manufacturer warranties, exposing the unit to dangers and problems too numerous to list, and will result in the human unit being permanently impounded. For free emergency service, call on **Jesus**.

DANGER: The human being units not responding to this recall action will have to be scrapped in the furnace. The SIN defect will not be permitted to enter Heaven so as to prevent contamination of that facility.

Thank you for your attention! - The Manufacturer

P.S. Please assist where possible by notifying others of this important recall notice, and you may contact the Father any time by 'Knee mail'!

Because HE Lives!

Working for God on earth doesn't pay much.....but His retirement plan is out of this world!

I WILL HOLD YOUR HAND

Merely whisper, "Our Father"
And couriers, fresh from before His face,
Walk down starry avenues
With reservoirs of Grace.

Down Orion's flaming corridors
With gentlest command;
"Fear not, I will walk with thee,
I too will hold your hand."

We look with anticipation through vast eternity
To soon see His lovely Face and with Him always be.
I grasp His hand, at last I know
I'm free from all this care of earthly strife and woe.

Help me Lord, a greater faith obtain
And help me now to endure this mental strain,
And soon I'm sure we will walk with you
Down Orion's flaming corridor,
Never again to remember the sorrows here we bore.

(This poem was written by Hazel Armstrong, Rodney's deceased mother.)

HEALTH NUGGET

WHAT'S THE BEST WAY TO PREVENT DEATH: BY DR Michael GREIGER

"The 35 year follow-up of the Harvard Nurses' Health Study has just been published. It's a most definitive long-term study. Since the study started, thousands of participants have died. But that allowed them to study the risk factors for mortality. Because heart disease was the leading cause of death, it comes as no surprise that dietary cholesterol intake was a significant risk factor for dying. Consuming the amount of cholesterol

found in a single egg a day, appears to cut the person's life short as much as smoking five cigarettes per day.

The study found that the most protective factor is fiber consumption. Eating the amount of fiber each day found in just one cup of oatmeal appears to extend a person's life as much as jogging four hours a week. It's even better if you do both.

The intake of cholesterol is associated with living a **shorter life**. Cholesterol is only found in animal foods. The intake of fiber is associated with living a **longer life**. Fiber is only found in plant foods.

The one food most tied to living a long life is **nuts**. A person who eats two handfuls of nuts per week, appears to get the benefit of four hours of jogging per week.

The solution to the buildup of plaque in our arteries appears to be that we have to get our total cholesterol down to about 150. They have found that the average vegan has a cholesterol level of 150.

You can get your cholesterol level down with drugs, (but at a terrible risk). Some of the side effects are: memory loss and confusion, an increase in blood sugar levels, as well as onset diabetes. The other option to decrease both heart disease and diabetes – (with no harmful side effects) is a plant based diet.

But **cholesterol** is only half of the heart disease story. The other half is **inflammation**. We've known for 15 years that a single meal high in animal fat can paralyze our arteries, cutting by one half their ability to relax within hours of eating the animal products. The whole lining of the vascular tree gets inflamed and stiffened. That inflammation calms down after about five hours.

But then guess what happens? Another meal! Then we whack our arteries with another load of meat, eggs, or dairy. So most people are in this chronic state of **low-grade inflammation**. This condition increases their risk of inflammation related diseases like heart disease, cancer, and diabetes, one meal at a time.

After a meal of animal products, people suffer from endotoxemia. Their bloodstream becomes awash with bacterial toxins. These are known as endotoxins. These dead meat bacterial toxins are not destroyed by stomach acid. They are not destroyed by pancreatic enzymes, and are not destroyed by cooking. (They tried boiling meat for literally hours. It still didn't get rid of them) Even our bodies' best attempts at acid and enzyme digestion could not get rid of them.

The greatest danger of animal fat in our diet is that the animal fat ferries these endotoxins through our gut and into our systems. They are so loaded with the toxins of these dead or living bacteria, that they trigger an

immediate inflammation in our systems, even if the animal products are fully cooked.

The solution is to eat a plant based diet, but this solution seems to difficult for many Americans to comply with. Doctors know this, and so a number of them say, "Oh, patients won't change their diets or stop smoking, even if it's going to kill them, so why bother warning them?"

That idea in the minds of the medical profession may be the real leading cause of death in America!

(This article was taken from the December newsletter by Paster Jan Marcussen)

NOTABLE NEWS

BIOTECH GIANTS SUE HAWAIIAN ISLAND FOR PASSING LEGISLATION TO RESTRICT GMOS

Tuesday, January 21, 2014 by: Jonathan Benson, staff writer

(NaturalNews) The "big dogs" in chemical agriculture are on a witch hunt to reverse a bill passed by the Kauai County Council back in November that sets reasonable restrictions on the cultivation of genetically modified organisms (GMOs) on the Hawaiian island. According to the *Huffington Post*, an unholy trinity represented by DuPont, Syngenta and Agrigenetics Inc. (an affiliate of Dow AgroSciences) has filed a federal lawsuit arguing against Measure 2491, which is intended to set buffer zones between schools and fields sprayed with pesticide, for instance, and requires companies to disclose when and where they are spraying their poisonous concoctions, as well as report genetically modified crops.

As it currently stands in Kauai, chemical companies have very few restrictions on where they are allowed to plant GM crops and how often they are allowed to spray undisclosed chemicals on fields. Because of this, many areas of the island have become toxic hotbeds, with local residents reporting allergies, neurological damage and other major afflictions stemming from exposure to GMOs and crop chemicals, one of the many issues that stands to be addressed by Measure 2491.

But the biotechnology industry is fighting tooth and nail to destroy Measure 2491, which will presumably expose the massive environmental damage being caused by the industry's nefarious activities on the otherwise pristine island. According to reports, the chemical industry is now claiming that Measure 2491 is somehow unconstitutional because it interferes with state and federal laws governing GMO cultivation, a desperate attempt by Big Biotech to conceal its evil deeds.

"They chose to use their money and legal power to bully us in court," stated Kauai Councilman Gary Hooser, who co-introduced the bill, about this latest threat to the democratic process. "These companies do not want our county to set a precedent that other communities are going to follow."

Chemical companies don't want the public to know what chemicals they are spraying.

The irony of the industry claiming that its rights are somehow being violated by Measure 2491, which is set to take effect in August, is that these same chemical companies have never had to prove the safety of their chemical solutions to regulators. Instead, they have repeatedly been allowed to violate the rights of the very public they are now attempting to sue by their indiscriminate use of proprietary and undisclosed chemicals.

"We do not know and cannot properly research and evaluate these impacts because the companies will not tell us what chemicals they are using," added Hooser, as quoted by the *Huffington Post*. "Instead, they choose to ignore the decision of our local community and take us to court."

Since its announcement, the lawsuit has generated a groundswell of support from outside organizations in support of Kauai and Measure 2491. Multiple law firms and various environmental lawyers have already offered to fight the triple lawsuit pro bono, or free of charge.

"You've got three very big corporations all ganging up to bring this lawsuit," noted Paul Achitoff, an attorney at Earthjustice, an organization supportive of Measure 2491. "If it costs them a little more money to beef up their security, rather than using secrecy, that's what they need to do."

If successful in their malevolent endeavor, DuPont, Syngenta and Agrigenetics Inc. will have Measure 2491 declared invalid under the constitutions of both the U.S. and Hawaii, as well as have their own legal fees for filing the lawsuit reimbursed by the county. A scheduling conference for the lawsuit is set for April 14 in the U.S. District Court in Honolulu, according to the *Huffington Post*.

CHOSEN VESSEL

The Master was searching for a vessel to use;
On the shelf there were many, which one would He
Choose?

"Take me, cried the gold one I'm shiny and bright,
I'm of great value and I do things just right.
My beauty and luster will outshine the rest

And for someone like you, Master, gold would be the best!"

The Master passed on with no word at all;
He looked at a silver urn, narrow and tall:
"I'll serve you, dear Master, I'll pour out your wine
And I'll be at your table whenever you dine,
My lines are so graceful, my carvings so true,
And my silver will always compliment you."

Unheeding the Master passed on to the brass,
It was wide mouthed and shallow, and polished like
glass.

"Here! Here!" cried the vessel, "I know I will do.
Place me on your table for all men to view."

"Look at me", called the goblet of crystal so clear.
"My transparency shows my contents so dear,
Though fragile am I, I will serve you with pride,
And I'm sure I'll be happy in your home to abide.

The Master came next to a vessel of wood,
Polished and carved, it solidly stood.
You may use me dear Master", the wooden bowl said".
"But I'd rather you used me for fruit, not for bread!"

Then the Master looked down and saw a vessel of clay,
Empty and broken it helplessly lay.
No hope had the vessel that the Master might choose,
To cleanse and make whole, to fill and to use.
Ah! This is the vessel I've been hoping to find
I will mend and use it and make it all mine.

I need not the vessel with pride of itself;
Nor the one who is narrow to sit on the shelf;
Nor the one who is big mouthed and shallow and loud;
Nor one who displays his contents so proud;
Nor the one who thinks he can do all things just right;
But this plain earthy vessel filled with my power and
might

Then gently He lifted the vessel of clay.
Mended and cleansed it and filled it that day.
Spoke to it kindly, "There's work you must do.
Just pour out to others as I pour into you."

Author Unknown

FROM KATIE'S COOKBOOKS

For those of you who cannot tolerate wheat gluten this is a bread made with spelt flour. I have made it and it is quite good. Also it is easy to make. We had to order the flour off the internet but if you have access to a health food store you probably can find some spelt flour there, or perhaps your food market may carry it?

Spelt Bread (makes 3 loaves)

Ingredients:

2 tablespoons yeast
3/4 cup warm water
2 2/3 cups warm water
1/4 cup honey
1 tablespoon salt
9 tablespoons oil
9 cups spelt flour

Directions:

In a cup, combine 3/4 cup of warm water, 1/4 cup of honey and 2 tsp of yeast. Set aside.
In a large bowl, combine 2 2/3 cup of warm water, salt and oil.
Add half flour and yeast mixture.
Stir well.
Add remaining flour and knead for about 8 to 10 minutes.
Preheat oven to 200 degrees and then turn off.
Grease an ovenproof bowl and place dough in it. Let rise in oven. Punch dough down.
Divide into three, place into three greased loaf pans, poke holes in loaves and let rise again.
Bake 425 degrees for 20-25 minutes.

(This dough was a little sticky so I couldn't form it into loaves. I just put it in the pans and it baked into loaves just fine.)

God willing we'll see you next month!

Remember God loves you and so do we!

Rodney and Katie

TRAPPED

Time is swiftly passing by while the masses are **asleep** to what is about to transpire. The world is ripe for destruction and it's inhabitants are trapped by ungodly lifestyles.

“And as it was in the days of Noe, so shall it be also in the days of the Son of man. They did eat, they drank, they married wives, they were given in marriage, until the day that Noe entered into the ark, and the flood came, and destroyed them all Likewise also as it was in the days of Lot; they did eat, they drank, they bought, they sold, they planted, they builded; But the same day that Lot went out of Sodom it rained fire and brimstone from heaven, and destroyed [them] all.” Luke 17:26-29

There are four major entrapments that endanger the spiritual lives of Christians, food, sex, Materialism (money) and entertainment.

The enemy of souls has a tailor-made snare for each of us tailored just to suit our particular weaknesses.

Food

Food is necessary for us to survive and be healthy so how can food be an entrapment or danger?

God created us with taste-buds so we can enjoy what we eat; however, He also designed us with a mind (brain) so we might eat intelligently.

Some of us eat like animals. As an example; cats will eat until they are satisfied and quit. while other animals will eat until they founder.

In the books of Genesis and Deuteronomy God has outlined what we are and are not to eat. He is our creator and therefore our creator (manufacturer) knows what is the best fuel for the human machine He has created.

Eve's temptation was upon appetite. Don't you think the Devil, having success with Eve, would test us in the same way?

“And the LORD God called unto Adam, and said unto him, where art thou?

And he said, I heard thy voice in the garden, and I was afraid, because I was naked; and I hid myself. And he said, Who told thee that thou wast naked? Hast thou eaten of the tree, whereof I commanded thee that thou shouldest not eat? And the man said, The woman whom thou gavest to be with me, she gave me of the tree, and I did eat.” Genesis 3:9-12

When Jesus was in the wilderness being tempted by the Devil; He also was tempted with appetite. “And when the tempter came to him, he said, **If** thou be the Son of God, command that these stones be made bread.” Matthew 4:3

There are two categories of eaters. Some people eat to live, others live to eat. Those who eat to live will become educated as to what foods are best for their health and eat to be healthy. Those who live to eat will eat only foods they like and usually over-indulge.

Our body's cells are made up of the food we eat; therefore, 'we are what we eat'.

If we eat largely of junk food and fried foods with poly-unsaturated fats, which plug our arteries, our brain cannot get enough oxygen-rich blood in order to think intelligently and we can be easily deceived and overcome by every deceptive person or doctrine.

Note: Most foods that come from fast food restaurants are loaded with empty calories that form fat, are considered junk food.

The Bible instructs us not to eat **blood** and **fat** of animals. Not because God did not want us to enjoy our food but because it will destroy our minds and bodies.

“Speak unto the children of Israel, saying, Ye shall eat no manner of fat, of ox, or of sheep, or of goat. And the fat of the beast that dieth of itself, and the fat of that which is torn with beasts, may be used in any other use: but ye shall in no wise eat of it. For whosoever eateth the fat of the beast, of which men offer an offering made by fire unto the LORD, even the soul that eateth it shall be cut off from his people. Moreover ye shall eat no manner of blood, whether it be of fowl or of beast, in any of your dwellings. Whatsoever soul it be that eateth any manner of blood, even that soul shall be cut off from his people.” Leviticus 7:23-27

You might say that was instruction for the Israelites only, but the Jewish people did not have bodies different than ours, so what was not healthy for them will not be healthy for us.

The reason God prohibits the eating of fat and blood is that it is destructive to health. It is a scientific fact that it is the blood that carries disease and fat clogs arteries.

“But flesh with the life thereof, which is the blood thereof, shall ye not eat.” Genesis 9:4

Sex

Sex like food is necessary and healthy when experienced as God intended. But like food when it is abused it is demoralizing and unhealthy.

When overdone it is capable of destroying the nervous system and opens the door for rheumatism and arthritic disease etc. When abused it depletes minerals that are necessary for good health.

It is almost impossible to open a book, watch tv or a movie, turn on your computer or go to Walmart without seeing sex flaunted.

Materialism (Money)

“For the love of money is the root of all evil: which while some coveted after, they have erred from the faith, and pierced themselves through with many sorrows.” 1Timothy 6:10

“And again I say unto you, It is easier for a camel to go through the eye of a needle, than for a rich man to enter into the kingdom of God.” Matthew 19:24

Money also is necessary but should be used judiciously. When used to satisfy selfish desires or wasted on extravagance it becomes a curse. God holds us accountable for how we use the means He gives us talents to earn. Read Matthew 25:14-27

Being over materialistic is breaking the tenth commandment and is covetousness.

Covetousness is more than wanting the belongings of someone else. It is having an appetite for material things which is never satisfied.

When God gives to us more than we need it should be used to further His work on earth. When money is self-

ishly hoarded it promotes trust in material things thereby reducing faith in God.

No selfish person will ever enter the Kingdom of God. We as Christians are to be selfless as Jesus is!

“Fulfill ye my joy, that ye be likeminded, having the same love, being of one accord, of one mind. Let nothing be done through strife or vainglory; but in lowliness of mind let each esteem other better than themselves. Look not every man on his own things, but every man also on the things of others. Let this mind be in you, which was also in Christ Jesus:” Philippians 2:2-5

Entertainment

Entertainment and recreation are opposites. Entertainment corrupts and recreation promotes mental and physical health.

The products of Hollywood are corrupting the minds of the masses by promoting violence and illicit sex. I know many will disagree with me but many a murder or rape could have been prevented if the offender had not polluted their minds with tv, movies, girlie magazines, video games and modern music, which is all about drugs, violence and sex.

“And as it was in the days of Noe, so shall it be also in the days of the Son of man. Likewise also as it was in the days of Lot; they did eat, they drank, they bought, they sold, they planted, they builded; But the same day that Lot went out of Sodom it rained fire and brimstone from heaven, and destroyed them all.” Luke 17:26,28,29

“And God saw that the wickedness of man was great in the earth, and that every imagination of the thoughts of his heart was only evil continually.” Genesis 6:5

There is a way out of the mess this world is in.

Jesus said. “Behold, I stand at the door, and knock: if any man hear my voice, and open the door, I will come in to him, and will sup with him, and he with me.” Revelation 3:20

WILL YOU OPEN THE DOOR OF YOUR HEART FOR JESUS TO COME IN?

By Rodney Armstrong
