

P.B.

In Zambia, the radio programs have helped the SDAs. I am saying so because, Zambia has its own TV channel called Hope Channel and through this channel, one local pastor said “We the SDAs have to wake up and turn to our messages God gave us and those who listen to Kavu can get straight messages there.” That local pastor did not mention your name when he knows your name. The question is why was he avoiding to say your name? It is because he will be linked to you and can be disfellowshipped by the Zambian conference.

The truth is that many SDA pastors, elders and leaders appreciate the messages and make use of them. They do not want to be exposed and be known that they are in support of the messages by the American. I am just coming from Kitwe where 7 elders were waiting for me and when I reached there, I gave them **2,040** dvds comprising of the following series.

1. Revelation Series – 400 dvds
2. Daniel Series – 400 dvds
3. Jacob’s sons series – 120 dvds
4. Ezekiel series – 120 dvds
5. Elijah series – 200 dvds
6. Behind the Door series – 400 dvds
7. Amazing Grace series – 200 dvds
8. Several short series - 200 dvds (comprising the new dvd sermons that you sent me in last priority)

I had 2 boxes of tracts that were 5,000 in total. There were special books that I included like NSL and all those wonderful materials that come along with priority mails. The mainstream elders are happy and praising the lord. Many SDAs in Zambia are humbled with the educative messages are changing their lives. They listen to radio programs and seek the dvds that I took.

In the highlands of Tanzania, there is a small group of Pentecostals who have started to study the book Revelation. The interest came from the radio program which one of their leaders had listened and re-listened to the series until he started to see sense and accepted the messages. For more than 2 years now, he has informed his church members to take a few minutes to listen to this important series which is often on air in the morning. Today, they are happy to study from the Revelation series from their homes without interruption.

In Namibia, am preparing the dvd series to ship to Kennedy so that some of the materials can get to Mary Muller in Walvis Bay where she lives. I had already informed Kennedy about this. In Luena, the work is progressing well there. There is a program which the brethren are trying to translate “Who changed it and other educative tracts that you have put together in their local languages. They have requested for more dvds series as the ones they had have all be given out to those families who have so much interest in wanting to know the prophecies of Revelation and Daniel.

We have special cases where Indian nationals and some foreign nationals request the dvds and don’t want to be revealed. I really like to have some interviews with such people and share them with you but they tell me that they don’t want to be known but would only appreciate to receive the messages by the good American. Indians like the Behind the door series very much. I don’t why they only request for this series so much. Muslims like requesting this series too and many

Zambian soldiers who enjoy and appreciate the messages from the barracks they live in. Those few who are bold are the ones who give me their names which I mention.

I like seeing this work going P.B. I just want to be part of those heeding and hastening the second coming of our lord through these precious timely messages God has presented to the world through you P.B. I have a friend whom in the long past you used to send materials to and now lives in Serenje, he is Leonard Kafula. This brother lived in Kitwe from 1997 to 2003. This brother loves the dvds messages and in the town he is, he was asking for more dvds to send him.

Another brother is Field Sinkololwe. He lives in Chingola and sometime in the past you sent him materials. He was here in Ndola and got materials with him. Field likes having Bible studies with mainstream members at his home. Others brethren in Solwezi, Mwinilunga, and elsewhere are waiting to get the materials. I appreciate your support which makes me busy to copy the dvds and print the tracts. Yes, working with you has brought a blessing to me and to many SDAs in and outside Zambia.

My Missionary car is okay. I have maintained it very well. It is very handy and I thank God each time I am driving it with materials.

God bless you and fill your hands with seeds to scatter across Africa.

Edward.
